## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Lee.

Lee shows an air freshener for a motor vehicle comprising an intermediate support piece 44 including a horizontal plane surface with a hole in the middle, the intermediate support piece having a liquid freshener produce receptacle 48 while on the back side in a middle, the intermediate support piece comprises a horizontal projection with a male dovetailed anchorage system for attachment to the motor vehicle by a clip provided with a female dovetailed anchorage with a later insertion stop, the clip having flexible projection arms for press-fitting between air conditioning grilles of the motor vehicle or at any other point on the dashboard.

### ***Claim Objections***

3. Regarding claims 2 and 3, since these claims deal with a container bottle, they will not be further evaluated on their merits because claim 1 recites either a product container bottle or receptacle in which the later is addressed by the patent to Lee.

### ***Conclusion***
